#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 09 February 2004.
- 2a) This action is FINAL.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 5, 6, 19-22 and 34-36 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7. Further, claims 13, 14, 27, 28 and 29, drawn to a spacing system which uses a spring, or a plurality of biasing elements, are not directed to the elected species, and are also withdrawn.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 7-12, 18, 23-26, 33 and 37 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the Precision Pitch Spacing System, (PPSS) iTi Industrial Tools Incorporated, admitted as prior art by applicant, specification page 5, 0013 and figure 2, and further detailed in the document submitted by applicant in support of the admitted prior art, as set forth in the Office action mailed 06 November 2003.

### ***Allowable Subject Matter***

4. Claims 15-17 and 30-32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art of record does

not disclose or fairly teach a retention feature which comprises a recess to receive at least a portion of the biasing element. PPSS discloses a biasing element that extends from 16 radially almost the length of 18. There is no need for a retention feature.

### ***Response to Arguments***

5. Applicant's arguments filed 09 February 2004 have been fully considered but they are not persuasive. Applicant argues that PPSS does not disclose a shaped flange with includes both a substantially radically extending support member and a substantially axially extending spacer member, but two separate structures. The examiner agrees that the support and spacer members disclosed by PPSS are separate structure. However, there are no limitations that require the flange to be one structure, only that it have the support and spacer members. The device disclosed by PPSS clearly shows a shaped flange *including* both a support and spacer member as claimed. If applicant means to limit the flange to a single structure, it should be claimed.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to M Rachuba whose telephone number is 703-308-1361. The examiner can normally be reached on Monday-Thursday from 8:30 AM to 3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail, can be reached on (703) 308-2687. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
